

Traffic Pattern for SPPS 2020/2021

Due to the construction we have new traffic patterns for student drop off and pickup. Please be sure to share this information with high school students, grandparents, and anyone else who is dropping off or picking up students. For the safety of our students it is vital that we all follow these directions. Students may be dropped off in the church parking lot or in front of the Locust Street building. **NO ONE** is to park on Fourth Street or in the parking lot in front of the Fourth Street Building. Busses will be parking along Locust and Fourth Streets for drop off and pickup. Students must use the crosswalks when crossing the streets, they may not cross the street between busses. All vehicles using the church parking lot will need to enter from Fourth Street and exit turning left only onto Locust Street. No one will be permitted to turn right onto Locust St. Staff members will be directing traffic the first few weeks of school. Please be patient and cooperate by following their direction. Safety is key!
